**Total spend £9720.00**

### **Impact of the Sports Premium for 2014**

- The Mini-Ipads have supported the evaluation and improvement of PE skills across the school. Children can now watch and constructively criticise their own work and the work of their peers, identifying areas for praise and others for improvement. This feedback is proving to be very useful in supporting all the children in developing and making improvements to their skills which we hope will be demonstrated in more skilful participants in competitive situations.
- The Skipping Day was very successful and the school saw a huge increase in the number of children skipping at playtimes and lunchtimes, keeping children active, engaged and promoting cooperation and the development of skills. The school sold a vast number of skipping ropes to further promote this and the activity is still very popular in school.
- The Redbourne School Partnership has supported the school in taking part in many different sports competitions, as well as supporting the staff to develop their own sports skills. As a result, we now have a Hockey/Tri-Golf club after school, as well as a Netball Club which has been running since Spring 2014, with inter-school competition being organised with local Lower schools. The Partnership has also supported school in developing Schools Sports Leaders to help with the promotion of active learning and celebration in school. They are supporting staff with clubs and other activities, as well as supporting the school in other areas of learning, developing their organisational and creative skills across the curriculum.
- Premier Sport have formed a vital part of our PE provision, providing a high quality lesson each week for all the children. They have been observed by the school teaching staff, providing some in-house professional development, and their own leaders, and have also provided an after school club, as well as a “catch-up” club in school time for those children who basic main gross motor skills are well below age-related expectations. This has proved to be successful and those children have made good progress towards their targets.
- The swimming lessons for Year 4 will be an annual event in order to ensure that ALL children moving to Middle school are able to swim to the minimum standard expected. The six week set of sessions were challenging and the children were able to access a wide variety of skill development, with every child attaining a certificate for their achievement. The standard for coaching was high and the children were worked hard which developed their stamina and fitness in the water as well as their life-preservation skills.
- Unfortunately the Wake Up Shake Up activity did not happen due to time and staff restrictions. However, we have the resource in school and we hope that it will be used in the future, with a member of staff and the Sports Leaders taking responsibility for its promotion and continuance.
