Our results are very impressive year on year and compare very favourably with National expectations and similar local schools. When compared with National norms, if schools perform significantly higher in Year 2 they are awarded a sig+ symbol on the system used to analyse the data. All Saints' achieved sig+ in almost all areas in 2006, 2007, 2008. It is too early to have the validated data for 2009 but it looks likely that a sig + will be awarded in reading and writing and possibly maths.
